

# Howdy Y'all, École Sperling is getting a Pumpkin Patch!

On Monday, October 30<sup>th</sup>, from 1:00-3:00, our grounds will be “magically” transformed into a farmer’s dream...fields full of healthy, orange pumpkins that don’t require any weeding or watering! In order to build school spirit and to celebrate the season, all of the students at École Sperling will get an opportunity to search for the perfect autumn pumpkin companion with their Buddy classes. On this day, students are asked to bring a cloth bag with handles to carry their pumpkins to and from the school and home. For example, cloth grocery bags labeled with your child’s name would be a great choice whereas plastic grocery bags may not be strong enough. All of the children will be bringing home their pumpkin on this day. This year, we would also like to “go green” by asking all of the children to bring their own mug for hot chocolate which will be provided by our PAC parents. Travel mugs and plastic cups with handles are encouraged!

Although we can plan a fun, meaningful activity outside, we cannot choose the perfect weather for it. Please have your child dress appropriately on this day for some extended time outside (i.e. rainy day= rubber boots, raincoat with a hood).

We are looking forward to a rewarding harvest celebration!

A big harvest thank you to our Sperling PAC for funding this annual event.

Sincerely,

École Sperling Staff
